Schrock Innovations Celebrates Anniversary

Company will be 6 years old on January 1

Lincoln, NE – Dec 19, 2005:

On January 1, 2006, Schrock Innovations will celebrate its sixth anniversary. The company has grown from the dusty attic of founder Thor Schrock's home into Lincoln's #1 independent computer repair company.

"We are proud that in a mere six years a handful of talented individuals have come together to satisfy Lincoln and Omaha's demand for a customer-friendly computer repair center," Thor Schrock said. "Some companies have been trying to accomplish the same thing for years to no avail."

The company has plans to celebrate its anniversary with a special offering, however that announcement will be held until after the holiday season.
