Schrock Innovations Welcomes New Talent

VB.Net, PHP Experts added to SITech Division

Omaha, NE – May 10, 2005: Schrock Innovations added two additional expert programmers to assist in current and upcoming projects in the company's software development division, SITech.

Robert Troshynski and Adam McKee joined the Schrock Innovations team to assist with the development of medical billing software, the Maintenance Checkup Home Edition, and back-end website development.

Schrock Innovations has plans to hire two additional multi-skilled programmers before the end of the year.
